

## ✓ Monthly Progress Report - Where You Are Now

Your monthly progress report includes a Visibility Score, which shows the average of your Google Business Profile, Yelp, Bing Places, NAP Score, and Voice Search Readiness. Successful scores are most often achieved when all listings are claimed, active, and contain consistent information such as business name, address, and phone number. **However, please note that due to the reliance on third-party data and their connection status, there may be instances where we are unable to find a listing that should be present.**

## ✓ Voice Search Readiness

Voice-First Devices are the next big thing. Voice Search is a function that allows users to search the web through spoken voice commands rather than typing. Google Voice Search can be used on both desktop and mobile searches. We check against several parameters that influence voice search and the consistency of your name, address, and phone number in the databases that feed voice search applications.
